

# APC Easy UPS 1 Ph Online

For IT professionals in small to medium businesses, EasyUPS Online provides basic power protection for unstable power conditions, ensuring consistent and reliable connectivity at the most critical moments.

APC Easy UPS Online is a versatile, high quality, cost competitive UPS developed to handle a wide voltage range, and inconsistent power conditions; delivering the quality millions of IT professionals trust around the world.

www.apc.com

# APC Easy UPS 1 Ph Online Standard Features (1-10kVA)

## High power factor

More real output power in watts 0.8 Pf (1, 2, 3 kVA). Unity Pf (6,10 kVA)

# Input power factor correction

(0.95 under normal input and full load)
Minimizes installation costs by enabling the use of smaller generators and cabling

#### Generator compatible

Ensures clean, uninterrupted power to the loads in the event of an extended power outage

## OVCD (Overvoltage Cutoff Device) protection

Under special application with high voltage condition, OVCD protection will prevent the damage of UPS components and extend the life of the UPS

#### Wide input voltage range

(Half load: 110-300VAC)

Allows for unstable power environments

## Intelligent battery management

Maximizes battery performance, life, and reliability through intelligent precision temperature compensated charging

#### Built-in Automatic and Manual Bypass

Ensures seamless power to the load even in the event of catastrophic UPS failure

#### Power conditioning

Protects connected loads from surges, spikes, lightning, and other power disturbances

## Flash upgradeable firmware

Allows for field updates of firmware via communication ports (USB or RS232)

## LCD/LED Display

Intuitive interface provides detailed and accurate information with the ability to configure locally

#### Environmentally robust

Conformal coated

#### ECO mode / Green mode

An energy saving mode that allows the input voltage regulation range to be set and modified through the LCD display

#### Safety agency approved

Ensures the product has been tested and approved to work safely with the connected service provider equipment and within the specified environment

## Excellent power quality and performance

True double conversion provides tight voltage and frequency regulation and zero transfer time for reactive loads such as machinery or lab equipment

# APC Easy UPS 1 Ph Online Additional Features (6&10kVA)

# Input power factor correction

(0.99 under normal input and full load)

Minimizes installation costs by enabling the use of smaller generators and cabling

# High power factor

More real output power in watts. PF=1

# **Power Conditioning**

Protects connected loads from surges, spikes, lightning, and other power disturbances

# Emergency Power Off (EPO)

Immediately remove power to all connected equipment in the event of emergency

# APC Easy UPS Online Related Accessories

Enable monitoring and control with an additional purchase

# SNMP Card (APV9601)

APC SNMP Card provides direct communication with your APC Easy UPS.

# At a glance the SNMP card monitors:

- UPS status: load, battery charge, voltage
- Battery status: healthy & capacity & runtime
- Shutdown Wizard: ability to remotely shut down and reboot server

# Dry Contact Card (VGL9901I)

UPS management accessory that provides two dry contact input and one relay output interface to APC Easy UPS SRV Series

# Suitable with applications:

- IBM server, personal PC and workstations equipment
- Auto-controlled industrial equipment and communication applications

# **APC Online Easy UPS**

# LCD display

1.On/Off Status LED

Indicates power is on

2. On/Off Button

Press to power UPS on or off

3. Alert LED

Flashes red when UPS has a notification or is in a steady state when there is a fault

## 4. Mute/ESC button

Mutes current alarm temporarily and also serves as the escape key when navigating the sub menus of the display

# 5. Enter key

Press to enter the display menus and chose an option within the menu

# 6. Up/Down arrows

Keys for navigation through the display menu

# LCD display icons

UPS is on utility power

UPS is on battery power

UPS is in bypass mode

Replace battery

An internal fault is detected

Overload- connected load is drawing more than the power rating

Battery charge

Load level

Mute- audible alarm has been disabled

ECO mode – illuminated when the unit is providing utility power directly and power is within configured ranges

Alert or notification - UPS has detected and error please see user's manual for details

Event – illuminated when the user is reviewing the event log
